

Principle Contractor Services

JBD Tritec offers Principle Contractor Services in accordance with CDM Regulations 2007. Appointed by the project client we plan, review, manage and monitor the project to ensure the cooperation and coordination of all trades and parties onsite. Hazards are identified and risks are properly controlled.

Key Parameters of the PC role are;

- Review of sub-contractors insurances, policies, competence and project specific documentation
- Supply and maintenance of site offices and welfare facilities
- Site supervision to monitor, audit and manage site activities. Liaison with client and CDM coordinator on any issues or concerns.
- Communication with sub-contractors on H&S matters.
- Implement permit to work system.
- Implement of site control procedures
- Chair project H&S meetings as required
- Enforce safe working practices throughout the project.
- Maintenance of Health and Safety documentation for reference and review.
- Compilation and submission of project O&M manuals
